

## How to use the Flooding API?

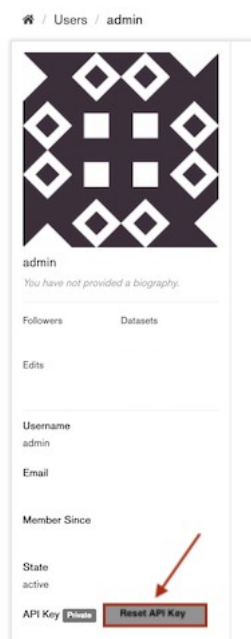

1. Requests access to the [Flooding datasets](#) following the instructions in [this document](#).
2. Once you have a SmartDublin user you need a SmartDublin API Key.
  1. Login into [SmartDublin](#) (Login button in the footer menu)

2. Go to your user page clicking in your name in the header menu

3. Reset your API Key

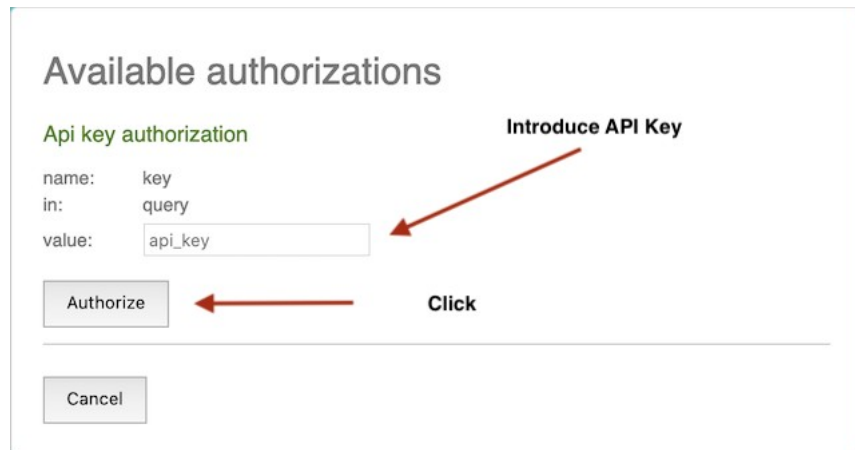

4. The new API Key will be shown only once, store it in a secure place

### 3. Use your API Key in the Flooding API

1. Click in the Authorize button in the top of this page

2. Introduce the API Key in the popup window
3. Click Authorize

4. You are set up to use the Flooding API
